

Our Company Profile

A Formidable Engineering Partner

ASCENDON is a customer-centric brand that understands the need for business continuity in today's demanding and highly competitive engineering landscape.

We offer customized solutions in load handling and waste management through our broad portfolio of products supported by our wide-range of skills and capabilities that have been honed over years of experience. ASCENDON is recognized for consistently delivering quality products alongside top-notch engineering services and has become the partner-of-choice for companies which seek high efficiency and a greater peace of mind. ASCENDON has partnered both privately-owned companies across various industries as well as various government bodies. Our affiliated subsidiary, Wong Fong Engineering Works based in Singapore is an established market leader backed by over 40 years of first-rate engineering experience.

At ASCENDON, hardwork and perseverance are our key driving components to overcoming every kind of obstacle. Always looking forward, we undertake each challenge with a positive spirit and steely determination.

Our Core Competencies

Integrated Engineering Solutions

One-stop solution for seamless integration

- We provide a full spectrum of services from consultation, conceptualization to final production inclusive of design, fabrication & prototyping and manufacturing – within a short turnaround time.

Wider range of solutions catered to military and defence

- Wong Fong provides a comprehensive suite of products and capabilities for every essential military and logistical requirement.

Built according to precise standards

- Our strength in turnkey undertakings involve achieving accuracy efficiently in order to meet your specific requirements.

Emphasis on systems testing

- Destructive or non-destructive methods are utilised in analysing the true stresses on physical structures to ensure the stability and reliability of our systems.

Accolades & Certificates

Commitment to Quality & Excellence

Recognized as one of Singapore's Top 500 SMEs

- Our commitment to our core policies of Customer Satisfaction, Excellent Quality, Teamwork & Profitability, has made us a name to be reckoned with both in Singapore and regionally.

ISO Certifications

- In 2000, Wong Fong obtained the ISO 9001:1994 certification for the design, manufacture and servicing of load and waste handling equipment. Our resolution to deliver consistent uncompromised quality led to the ISO 9001:2000 certification in November 2003.

A Trusted Partner in Military & Defence Capability Solutions

Our Range of Military & Defence Products

Performance & Endurance

Ascendon boasts a comprehensive portfolio of products with the latest in technology, catered to the defence sector. Expect greater integration and assimilation of engineering solutions that meet your strategic needs.

Military Cranes

The military line provides lifting, loading and handling solutions for various military and logistic supply chains.

Troop Carriers

General purpose troop and cargo carriers with optional power tailgates or hydraulic cranes.

Cargo Carriers

Various military cargo bodies, platforms and torsion-free bodies are available.

Military Dumper Trucks

with the option of a sweeper for runway maintenance.

Cross-country or High-mobility Trailers

Specially customized and built for cross-country and rough terrain operations.

STANAG Flatracks & Hooklifts

NATO STANAG-based demounted platforms and flat racks are available.

Military Shelters

The military shelters are made of light-weight, high-durability materials for military applications and maintenance vehicles. Options include a power ramp and crane system.

Military Gensets

These customized Gen-set and air compressor systems are suitable for various operational requirements.

Add-on Armour

Comprehensive add-on armour solutions are available for various civilian and military vehicles. Special solutions include STANAG- or NIJ-level armouring panels, ballistics glass, run-flat tyres, blast-protection panels, self-sealing fuel tank coating and explosion suppression materials for fuel tanks.

Fuel Tanks

Convert or customize your fuel tanks with our self-sealing and explosion-proof military applications that provide your crew with maximum safety, security and survivability.
