HERK™ Tailgates

A reliable lifting & dock loading solution

Wong Fong Engineering Works is a provider of a comprehensive range of services from sales, manufacturing to service and maintenance of load handling and waste handling systems for a wide spectrum of industries inclusive of construction, transportation, marine, military and waste handling in Singapore and the Asia-pacific.

A market leader with more than 40 years of engineering experience, Wong Fong has established a brand name that is synonymous with top-notch engineering expertise and first-rate quality that is consistent throughout our broad range of product offerings and service.

As a supplement to our current Load Handling System Range, we have added a robust range of HERK™ Tailgates to cater to the varied needs and demands of the industry. We offer a range of Tailgate Loaders with varying sizes and capacities to suit your load handling requirements, designed to solve your unique transport problems and engineered to perform in the most rugged operating conditions.

Our Range of HERK™ Tailgates

Built for maximum dock loading efficiency

HERK™ Tailgates are designed to facilitate the handling of goods from ground level to the loading dock platform with the ease of mechanized elevation and effortless movement.

The hydraulic operated tailgates require a shorter installation time, are user-friendly, and provide maximum convenience in the loading and unloading of heavy goods up to 2,000KG on majority of the industrial and commercial vehicles. We also provide customization and fitting of platforms to accommodate the unique dimensions and specifications of some vehicles. They are built-in to the vehicles and used exclusively to load and unload goods together with the movement carriages and operator.

Durable Aluminum Platform

Safety Mechanical Chain Lock

Automatic Levelling System

General Specifications

- Wide, sturdy aluminium platform with high quality welding
- 2 single acting lift hydraulic cylinders and 2 tilt hydraulic cylinders with platform openings
- Automatic mechanic levelling at the ground
- Adjustable platform tilt for any position
- Low maintenance bushes fitted to all pivot points
- Fully galvanized pins
- High quality power pack with valves imported from Europe
- Rear bumper
- Warning labels
- Handheld cable control

Simple and Functional Control

Easy Maintenance Power Pack
