ONE-STOP
MOBILITY SYSTEMS PROVIDER
FOR VEHICLE

GENERAL INFORMATION

The WAKO Single and Double Arm Wheelchair Lifter is specially designed for use in ambulances and passenger vans. Being fully operable by a powerful hydraulics pump driven by the vehicle battery, this provides a long lasting service life with little or no maintenance required.

WAKO SINGLE ARM WHEELCHAIR LIFTER

The WAKO Single Arm Wheelchair Lifter (Model. SN10) has a unique folding platform which allows full access to the rear doorway access when not in use. Despite its single arm and compact design, the WAKO Single Arm Wheelchair lifter is capable of lifting load of up to 180kg.

FEATURES

- ✓ Compact Design
- ✓ High Capacity of up to 180kg
- ✓ Easy Operation
- ✓ Unique Folding Platform
- ✓ Completely Clear Doorway Access

WAKO DOUBLE ARM WHEELCHAIR LIFTER

For those whom require a higher load capacity, the WAKO Double Arm Series offers a maximum load of up to 300kg. The WAKO Double Arm Series is especially designed for those whom require extra load capacity. Highly recommended for electric wheelchair or scooter, it is also suitable for lifting expensive and heavy medical equipment for transportability purposes.

FEATURES

- ✓ Built-in handrail on both sides
- ✓ Anti Rollover Flanges and Rear Rollstop
- ✓ Emergency Manual Handpump
- ✓ Easy Operation with Remote Control Switch
- ✓ Powerful Electric Hydraulic Pump
- ✓ Easy Installation and Removal

POWER MOBILITY SEAT

For everyone who lives with mobility challenges, as well as caregivers, the WAKO C-Series Power Mobility Seat offers unmatched ease of use and comfort. The Mobility seat can be installed in the passenger seat or the central row at the rear and provides a safe means of transport for the mobility-impaired. Not only that, the original vehicle seat can be used and mounted onto the system with the three-point car belt retained. The Turn & Lift Mobility seat fits most vans, minivans and MPVs while the Turn only Mobility Seat is catered to fit most SUVs and sedans.

FEATURES

- ✓ Original Vehicle Seat and Armrest
- ✓ Original Vehicle Three Point Car Belt
- ✓ Folddown Footrest for Ease of Entry and Exit
- ✓ 2 Buttons Simple Operation
- ✓ Wired and Wireless Remote Control
- ✓ Sliding Door Safety Features (Optional)

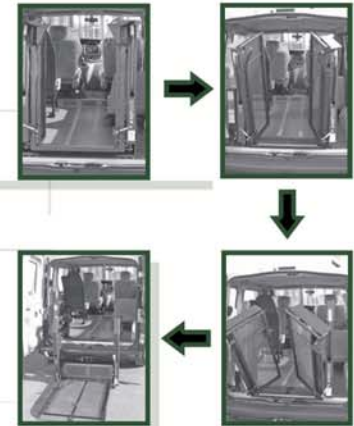

UNIQUE SPLIT PLATFORM WHEELCHAIR LIFTER

The Braun Unique Split Platform Wheelchair Lifter is the most popular brand of wheelchair lifter in the US . Its uniquely split open platform automatically opens during the fold cycle, dramatically increase the visibility and allows interior access thru the lift opening.

FEATURES

- ✓ Unique Split Open Platform
- ✓ Parallel Arm Lift With Hydraulic Cylinder
- ✓ Fully Automatic Lift
- ✓ Integrated Backup Pump
- ✓ Automatic Mechanical Inboard Barrier
- ✓ Dual Handrails for Security and Convenience
- ✓ Handheld Control with Illuminated Switches
- ✓ Lift Power On/ Off Switch

WHEELCHAIR/ SCOOTER LIFT

The Wheelchair/ Scooter Lift can raise and store a fully assembled scooter or wheelchair through the driver's or passenger's side sliding door of minivans, MPVs and passenger side of doors of full size vans. Fully driven by the vehicle battery, the Wheelchair/ Scooter Lift's operations are fully automatic and therefore, requires very little arm strength, balance or effort to use.

FEATURES

- ✓ Compact Design
- ✓ Powerful Lifting Capacity
- ✓ Effortless Loading
- ✓ Easy Operation with Cable Remote Control
- ✓ Easy Installation and Removal

ORBIT MOBILITY SEAT

The Orbit Mobility Seat provides safe, easy access to the first-row and second-row selected seating positions, but with the convenience of fully-powered operation. With just the touch of a button, the Orbit Mobility Seat rotates and moves outside and down to the most comfortable position for stepping in/out of the vehicle or transferring at the desired height. The Orbit Mobility is able to fit most MPVs and Minivans.

WONG FONG WHEELCHAIR LIFTER

FEATURES

- ✓ Compact Design
- ✓ Wide Platform
- ✓ Easy Operation
- ✓ Emergency Manual Handpump
- ✓ Full Aluminium Ramp (Optional)
- ✓ Wire Cable Remote (Optional)

RATCLIFF PALFINGER

RATCLIFF PALFINGER manufacture high quality, user-friendly Ratcliff tail lifts to provide safe and easy access to vehicles for wheelchair users and others with mobility difficulties. The comprehensive range of models provides ideal access solutions, not only for mini-buses, but also for regular buses, mobile libraries, health centres and exhibition units, complying with the requirements of the Disability Discrimination Act.

RUL350A
350kg capacity, semiautomatic, underfloor lift with large, platform 800mm wide x 1435mm deep - ideal for larger wheelchairs.

RTP350A
Fully automatic 350kg capacity twin pillar lift with a large mesh platform 800mm wide x 1330mm deep. Ideal for larger wheelchairs. Fits most vehicles.

RS300/3
3-step lift enabling able-bodied and disabled people to share one entrance. Stows as steps deploy to provide safe wheelchair access.

RUL300A
300kg capacity semiautomatic, underfloor lift with aluminium tread-plate platform. 728mm wide x 1200mm deep. Fits most vehicles.

RUL301A
300kg capacity, semiautomatic underfloor lift enjoying all the benefits of the RUL300A but with a 1350mm deep platform.

RS300/2
Similar in design to the 3-step lift, the 2-step lift is ideal for mid-floor heights. Ideal for buses and other vehicles offering wheelchair access.

RS300/1
The 1-step lift provides wheelchair access to lower floor buses - an easy, competitively priced solution to meet DDA requirements-.

RUL300
300kg capacity underfloor lift with manual deploy and stow. Ideal for occasional use. Shown here on an exhibition unit.
